Claims 1-7 and 24-33 are again rejected under 35 U.S.C. 103(a) as being unpatentable over either of Morikawa or Kanzaki et al. in view of any of Kronzer '902, Kronzer '179 or Cole et al. for the reasons of record.

Applicants' arguments are not commensurate in scope with their claims. In particular, the claims fail to recite that the foil is clear. Applicants' assertion to the contrary, it is not seen that the prior art donor webs have "physical properties" which would resist or prohibit the use of printed indicia. It is suggested that applicants further elaborate on this point in their response to this action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
